

Forms Manual

Welcome to AREA Forms on repree™. This manual will go through a step-by-step process on how to access, and use AREA Forms on repree™.

1. Login to repree™ and access AREA Forms

- a. Login to repree by using your REALTORLink® username and password by visiting <http://www.areahub.ca> and selecting AREA Forms and Repree from the menu bar (See Fig 1.1). Alternately, you can visit <https://app.repree.com/Account/naflagon/830BE4B8-0082-4DF7-993F-281016780D8A>

- b. Once logged in to Repree, click on the 'Forms' tab in the top menu bar (See fig 1.1)

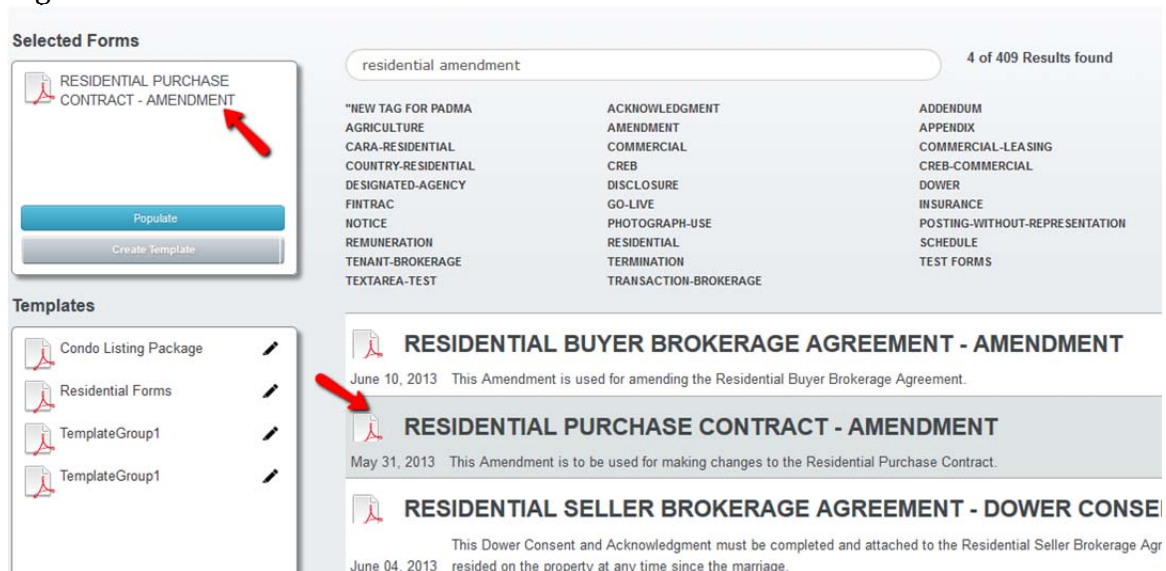

Fig 1.1

2. Searching AREA Forms

- a. There are 2 ways to search through forms: through filters, and the search bar
- b. Filters**
 - i. By clicking on a filter, your search is automatically narrowed down to only include forms that relate to that keyword.
 - ii. Select your desired forms by clicking on the form. Multiple forms can be selected in one search, by simply clicking on all the forms you need. Your selected forms will appear in a box on the left hand side titled “Selected Forms”. (See Fig 2.1)
- c. Search Bar**
 - i. In the search bar, you can insert a keyword, and forms will automatically narrowed to only include those that match.
 - ii. These forms can be further narrowed down by clicking on a filter.
 - iii. Select your desired forms by clicking on the form. Multiple forms can be selected in one search, by simply clicking on all the forms you need. Your selected forms will appear in a box on the left hand side titled “Selected Forms”. (See Fig 2.1)
- d. You can now review all selected forms in the box on the left hand side titled “Selected Forms”. (See Fig 2.1)

Fig 2.1

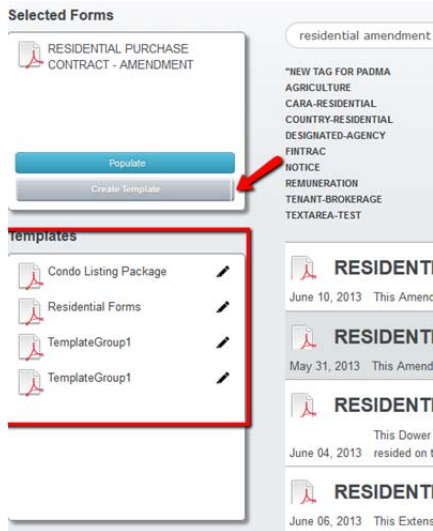

3. Building Templates

- a. Once you have selected your forms, you have the option to create a template or populate selected forms.
- b. Templates**

- i. A template is a package of forms you can save for future use (ie. Listing Forms).
- ii. Create your template by clicking 'Create Template'
- iii. Give your template a name, and click 'Create'. Your form template will now be visible in the box on the left hand side titled "Templates". (See Fig 3.1)
- iv. When accessing forms in the future, you will be able to select your template which will load the forms you saved.

Fig 3.1

Helpful Hint: Templates are useful for creating a package of forms that are used together and/or regularly. This allows you to save time by not needing to search through the forms library for each individual form needed.

c. Populate Selected Forms

- i. To populate your form click on the populate button located under the Selected Forms box on the left hand side. (See Fig 3.2)

Fig 3.2

4. Inserting Data

- a. Select your forms using the search or, by clicking on one of your templates.
- b. You will be prompted to insert a listing number for form pre-population from listing data. To do this, enter an MLS® number and select the "Populate form with data button". If you do not want to prepopulate the form select the "Continue without data" button. (See Fig 4.1)

Fig 4.1

- c. The next screen is where we will actually fill out our form. It will list all fields you are able to enter data into on a specific form. (see Fig 4.2)
